Usage:

Enter event date, and time of High Tide

Enter finish time at 20 minutes after High Tide, rounded to nearest 5 minutes.

Copy finish time to all boats

Theoretical Start time is then calculated automatically.

Enter Actual Start time as Theoretical Start rounded to the nearest minute (or nearest 30 seconds if the RO agrees!).

To enter a new boat type, copy a row (not Mirror) and paste a new row. Overtyping the boat type and PY numbers, then check the Actual Start time.
